Match up your bindings and boots. Step On® bindings ARE ONLY compatible with Step On® boots. Do not use either product with non-Step On® boots or non-Step On® bindings. Size does matter. Double check the sizing chart to ensure that you have the right size binding for your boot size. Pairing incompatible size boots and bindings will result in malfunction and could compromise your safety. Also, men's and women's sizes are gender-specific for a reason. Combining men's and women's Step On™ products will result in malfunction and could compromise your safety.
